

How Polluted Water are cleaned  
contaminate - to make dirty or impure.

pollute - to make dirty, unclean, or contaminated.

? QOD: What are ways that our fresh water gets contaminated?

What I think	What I learned
	<ul style="list-style-type: none"><li>• Farmers and homeowners use chemicals for crops and lawns to grow</li><li>• Farmers and homeowners use pesticides to kill bugs.</li><li>• Factories produce waste products</li><li>• When water flows over polluted ground it becomes contaminated</li><li>• It can contaminate our groundwater.</li></ul>

Questions I still have:
